*We are proud to be a source for locally grown, picked-ripe produce  
for the health-conscious adventurers (aka eaters)  
in Southeast Oklahoma / greater DFW Texas.*

The idea of farm-to-table eating should not be reserved as a luxury few enjoy. We believe it should be available at a fair price to anyone who wants to be more connected to the growers and growing process of the food they eat. We think it takes just one taste to understand the difference between a tomato that was picked green and placed in an artificial environment to ripen while driven across the country, and one that was plucked practically bursting ripe from the sunshine and dirt. If you're not sure, let us convince you! Our first boxes will be ready May 2016.

**Our Fresh Fruits & Vegetables:** Tomato, Watermelon, Cabbage, Carrots, Sugar Snap Peas, Honeydew, Turnips, Lettuce, Cilantro, Tomatillo, Cantaloupe, Turnips, Pumpkin, Peppers, Green Beans, Peas, Summer Squash, Spaghetti Squash, Broccoli

**Our Specialty Food Products:** Basil Salt / Mint Tea

Though not officially organic, our produce is chemical free! We grow all our produce from non-GMO seed, some heirloom and some hybrid stock. This is a continually evolving process! We select for flavor, natural disease resistance and variety. We enjoy experimenting with new varieties as well as repeating favorites.

We harvest almost all our produce the day before you pick it up. Most often that means it is in your hands fewer than 24 hours after it was pulled from the ground or off the plant!
