

Come Share Our Dream . . .

. . . of community gardens
sprinkled throughout Fannin County . . .

growing fresh, nutritious food

- for our food banks
- for our neighbors
- for ourselves

The HOPE Community Gardens coordinating team has located a great site for the first garden — a demonstration garden. We're ready to amend the soil to prepare it for a spring garden in 2011. The yield from the first crop will be donated to Fannin County food banks. The intent is that a section of all future gardens will be set aside for this purpose.

We're studying ideas from successful community gardens, and have several local resources available and willing to guide us as needed.

What we need now are

— more folks to work on the coordinating team

— more folks willing to "dig in" and follow through with the project. *

If you're interested in any aspect of HOPE Community Gardens, please call team captain Micki Wright at 903-227-0898 or e-mail us at info@texomaCORE.org.

** It is our HOPE that youth groups will become involved in the community gardens -- as an opportunity for service and as an opportunity for them to learn the many values of local food production.*
