**Specializing in naturally grown native pecans**  
**Fresh shelled halves and pieces available**

**Categories:** 🌱 Fresh Fruits & Vegetables  
**Growing Method:** Chemical-Free  
**Availability:** Year round

Native pecans have evolved over centuries and we believe ours to be among the tastiest available. Some of our trees are over 150 years old. Chemicals are not required to improve the flavor of these pecans grown in the rich bottom land of Fannin County near Bonham.

Our pecans are available in-shell or fully shelled and ready to eat. Pecans can be shipped fresh to your front door.
