Keeper for  
Crickets 2 Go

We offer a selection of premium live feeder crickets and 100% organically fed mealworms for the pet industry. We also carry 100% organic dog biscuits and all natural chicken jerky for dogs.

North Texas Cricket Company believes that our pets deserve the same high quality food that we demand for ourselves. We offer a superior live feeder solution with a selection of premium live crickets and 100% organically fed mealworms. Our newest line "The Natural Dog" now offers 100% organic dog biscuits and all natural chicken jerky for dogs.

We are devoted to running our operations with the least environmental impact possible. By teaming with other local businesses we can recycle some of their products saving valuable landfill space. Best of all by using composting programs in conjunction with local farms we have virtually eliminated our own waste output.
