*We are pleased to offer a variety of products from our farm to your home.
Come see us online to learn more about our family and what we have to offer!*

Tanglewood Creek Family Farm, owned and operated by the McNeill family, was born out of a desire to find a way back from the harried pace of our time, to the ancient paths of simplicity, integrity and quality – in all areas of life. After too many diagnoses with too many radical consequences, we determined to take responsibility for our family's health. Leaving no stone unturned, we have found ourselves searching for the old ways, which work with God's creation to support healthy living.

In the Garden

Our garden focus has turned to growing **Garlic** and **Culinary Herbs**.

- Our **Garlic** is *Certified Naturally Grown* - meaning we hold to organic standards. We do not use harsh chemicals, fertilizers, or pesticides on our farm. Our original seed garlic came from certified organic stock. Same great garlic as organic, but at a lower price! We have 10 different varieties of garlic for all of your culinary (and health!) needs. The flavors are bold and range from mild to hot, great-to-eat-raw to must-be-cooked. You cannot get this type of garlic flavor from the stores!
- Our **Fresh-cut Herbs** are so beautiful and fragrant to have around. Our family enjoys working in the herb garden, dreaming up new ways to use what we are growing! We use herbs for cooking, for good health, for illness, for skincare, as well as for haircare.

In the Pasture

In the pasture, you will find our **grass-fed turkeys, chickens, ducks, and guinea babies; hatching eggs; as well as eggs for eating.** Several of these items are seasonal and not always available, but when they are, you can be assured that you are getting the best for your family!

In the Farmhouse

In our home is where our creative sides really come forth. See online for gardening and household aprons, herbal skincare and haircare products, a southern gospel CD, and more.

*We continue to expand our offerings.
If you are local, come see us at the Chestnut Square Farmer's Market in McKinney!*
